Leetcode — Codeforces — GeeksforGeeks

Summary

Aspiring Software Engineer with a proven track record in full-stack web development and competitive programming. Successfully developed multiple production-grade web applications. Recognized for academic excellence, competitive programming achievements, demonstrating a commitment to innovation and problem solving.

Education

B.E. in Computer Science and Engineering

Chitkara University, Rajpura, Punjab

CGPA:8.83

2022-2026

Skills Summary

- **Project Management:** SDLC, JIRA
- **Programming Languages:** Java, C++, Python
- **Web Technologies:** HTML, CSS, JavaScript, TypeScript, React.js, Node.js, Express, Next.js, REST APIs
- **Databases:** MongoDB, MySQL, PostgreSQL, Prisma
- **Tools:** Git/Github, Postman
- **Core Subjects:** Operating System, Computer Networks, Database Management, Object-Oriented Programming

Projects

- **StudyNotion:** [Live] [GitHub] [HLD] [SRS] June-Dec 2024
 - Developed a fully functional ed-tech platform enabling users to seamlessly add, purchase, and easily access various courses.
 - Built a live **HTML**, **CSS**, and **JavaScript Editor** and **Compiler** using the Monaco Editor improving user interactivity and learning.
 - Integrated unique QR codes generated for every order and utilized **Razorpay** for efficient and secure payment processing.
 - **Tech Stack:** **React.js**, **Redux**, **Node.js**, **Express.js**, **MongoDB**, **Tailwind**, **Cloudinary**, **Razorpay**.
- **Professional Tailor:** [GitHub] June 2024
 - Develops an application to eliminate paperwork for tailors, streamlining order management and daily operations.
 - Allocates workers to improve service speed, tracks orders efficiently, and inputs measurements through the app to ensure accuracy and minimize errors.
 - Installed Excel export functionality for order details, allowing for easy record-keeping and data analysis.
 - **Tech Stack:** **Java**, **JavaFX**, **MySQL**.
- **Muzer:** [GitHub] Jan 2025
 - Engineered dynamic music queue system for live streams, enabling users to contribute and prioritize songs based on votes for an interactive and engaging listening experience.
 - Embedded **NextAuth** for **OAuth**, enabling secure user login and social provider integration for a seamless experience.
 - Utilized **Prisma** with **Docker** to manage **PostgreSQL**, ensuring efficient and secure data handling in a containerized set
 - **Tech Stack:** **Next.js**, **TypeScript**, **Prisma**, **Docker**, **Tailwind**, **PostgreSQL**

Achievements

- Ranked among the **top 5** out of **45** teams at **Technovate-UIET GDSC**, delivering innovative and impactful solutions.
- Global rank: **3,077** in **LeetCode Weekly Contest 422** (20,000+ contestants).
- Global rank: **3,107** in **Codeforces Round 937 Div 4** (29,500+ contestants).
- Ranked **200** from a total of **5000** applicants in the **International Innovation Challenge**.
- Solved over **1,000** problems on competitive coding platforms, showcasing advanced problem-solving and algorithmic skills.

Soft Skills

- Strong communication and teamwork abilities.
- Demonstrated leadership and collaboration skills in project and team settings.
