SUMMARY

Aspiring software engineer with a strong foundation in **Data Structures**, **Algorithms** and **Web Development**. Recognized for academic excellence, **competitive programming** achievements, and active contributions to developer communities, demonstrating a commitment to innovation and problem solving.

EDUCATION

Chitkara University of Engineering and Technology, Punjab / India
BE-CSE & Current CGPA: 9.44

2022 - Present
JULY 2026

COURSEWORK: Data Structures & Algorithms, Object-Oriented Programming, Computer Networks, Operating Systems, Database Management Systems, Basics of Machine Learning and Cloud Computing.

TECHNICAL SKILLS:

- **Project Management:** SDLC, Agile Methodologies, JIRA.
- **Programming Languages:** Java(J2SE), C++, Python, Functional Programming Concepts.
- **Web Technologies:** HTML, CSS, JavaScript, React.js, Node.js, Express, REST APIs
- **Database:** MongoDB, MySQL
- **User Experience (UX) and User Interface (UI):** Figma, Canva
- **Tools:** Postman, Git/GitHub, ThunderClient
- **Operating Systems:** Windows, Linux
- **Professional Skills:** Cross-functional Collaboration, Code Reviews, API Integrations, Business Logic Development

PROJECTS

1. PhilantroHub - NGO Donation Platform

(MongoDB, Express.js, React.js, Node.js)

GitHub

- PhilantroHub is a platform that connects donors, volunteers, and charities to address social issues effectively.
- Enables users to easily discover causes, contribute resources, and participate in charitable activities.
- Focuses on transparency by showcasing the tangible outcomes of contributions and efforts.

2. Tailors Assistant

(JavaFX, Java, MySQL)

GitHub

- A tool designed to streamline order tracking and management for tailoring businesses.
- Simplifies storing and retrieving customer measurements for accurate and consistent tailoring.
- Automates routine tasks, reducing errors and saving time for tailors and customers alike.

3. EduTrack

(MongoDB, Express.js, React.js, Node.js)

GitHub

- Lets tutors create courses and quizzes while enabling students to take them and track their performance.
- Provides a timetable and Pomodoro timers to help users manage and optimize their daily tasks.
- Integrates tools to balance learning and productivity, enhancing the overall user experience.

ACHIEVEMENTS

- Awarded as **Star Programmer** by the University.
- **LeetCode Rating 1646** (@Goyal_0811) :Among the **top 17.48%** coders on LeetCode.
- **GeeksforGeeks score 686** : Solved 200+ problems on GeeksForGeeks.(@shubhammh6a)
- **Core team member** at **Google Developer Groups** On Campus
- **Ranked 200** from a total of **5000 applicants** in the International Innovation Challenge
- **Selected in the top 120 from 3000** students to be part of the University Readiness Academy.
